History of Marietta City Schools

With an enrollment of 377 white students and 356 black students, housed in segregated schools, Marietta children attended their first day of classes in the city’s new free and public school system on September 5, 1892. It was the culmination of years of work by the citizens of the city, who since the 1830s, had operated church and private schools to educate male and female students of all races. For 128 years, the students and alumni of Marietta City Schools (MCS) have maintained a tradition of academic excellence, athletic prowess, artistic accomplishment, and diversity of culture and thought.

Throughout the early and mid-1900s MCS developed a reputation as a district that provided a superb classical education for its students. Tremendous student growth led to the establishment of a strong Parent Teacher Association (1917), the opening of the city’s first public high school for African-American students, Lemon Street (1930), the building of daycare facilities to meet the needs of working mothers (1944), and the opening of six new schools in the 1950s. Public school integration came to Marietta in 1964 when two students of color applied to attend the city’s all-white high school, with the full desegregation of Marietta High taking place in the fall of 1967.

Like their peers throughout the country, MCS students tested authority during the 1970s, organizing protests and pushing back against newly written rules and dress codes. At the same time the district continued to thrive, becoming a school district of choice while adding courses in industrial arts, construction, transportation, and vocational education. By the 1980s, special education and support staff for subjects such as music and art were expanded, and a transportation system was established.

In 1995 Marietta High received its IB World School certification, and in 2008 Marietta City Schools became one of Georgia’s first Charter Systems. An early learning center offering pre-kindergarten classes was developed in 2018, and 2019 saw the opening of one of Georgia’s premier College and Career Academies. The MCS charter system currently includes twelve schools: one early learning center, seven K-5 elementary schools, one grades 3-5 elementary magnet school, one sixth grade academy, one middle school, and one high school.

MCS strives to provide a world-class education for more than 8,500 students while maintaining and celebrating 128 years of tradition.

Our Strengths

- Stakeholders acknowledge and value the sense of family, tradition, and pride that exists in the Marietta community.
- Marietta City Schools has been at the forefront of the charter movement, serving as a visionary for how to leverage charter flexibility and innovation to positively impact the student experience.
- We are incredibly fortunate to have such knowledgeable, committed, and passionate educators serving our children; our stakeholders overwhelmingly acknowledge their contribution to our district’s level of excellence.
- The district has made a long-term commitment to supporting STEM education and the International Baccalaureate Programme across all levels.
- Marietta City Schools is a leader in Georgia and the nation by working with the GMAP Consortium and NWEA to create a new through-year assessment to replace the Georgia Milestones Assessment System.
- Our schools continue to be recognized for excellence, including MCAA as a National Blue Ribbon School, and both MSGA and MHS as GASSP Breakout Schools.
- The long-term fiscal approach by the Board of Education has prioritized staff compensation and resources for local schools; this philosophy has allowed Marietta City Schools to be competitive among regional school districts.

Opportunities for Growth

- Continued awareness of and responsiveness to external factors and trends that help students and families remove barriers that negatively impact student success
- Fidelity and accessibility for all students to STEM and International Baccalaureate learning opportunities and experiences
- Increasing support for and awareness of early learning and kindergarten readiness as the foundation for PreK-12 success
- Enhanced focus on the art and science of teaching and less on standardized assessments
- A more engaging curriculum and learning environment with instruction that connects student learning to the real world
- Addressing educators’ requests for increased collaboration to further develop individualized approaches to teaching and learning
- Improving and increasing family and community collaboration to support student achievement
VISION
Our vision is for all students to learn to their fullest potential.

MISSION
In partnership with families and the community, our mission is to prepare each student to maximize career, college, and life opportunities.

BELIEFS
• Education is the key to a successful future.
• All students and staff deserve safe, welcoming and affirming spaces, regardless of race, ethnicity, gender, religion, sexual identity or orientation, ability or disability, country of origin, or any other identity category or characteristics.
• Each member of the school community has responsibility for working towards achievement of the district’s vision.
• Caring and trusting relationships among students and adults in schools are vital to supporting the whole child.
• A highly effective and innovative staff is essential to student learning.
• Safe, inviting, well-maintained schools are essential for teaching and learning.
• Education is enhanced through access to technological resources, personalized learning environments, and quality facilities.
**STUDENT ACHIEVEMENT**
Prepare every student for college and career success

**HUMAN RESOURCES**
Recruit and retain effective teachers and staff who meet the district’s diverse needs

**COMMUNITY COLLABORATION**
Increase engagement across the district and throughout the community

**FISCAL RESPONSIBILITY**

The Marietta City Schools strategic plan reflects the district’s focus on continuous quality improvement and commitment to effective implementation, execution, and monitoring. Consistent engagement on every level of district processes and programs will result in updates and adjustments, which will be included in future versions of this document. Additionally, stakeholders can expect our district to leverage existing processes and resources to maximize student learning and maintain the highest levels of transparency and feedback through:

**IMPACT CHECKS/LOOK, LISTEN & LEARN TOURS** - meetings held throughout the year with the Board of Education, principals, local school leadership teams, and cabinet to maintain alignment of personnel, resources, support, and accountability to district and school priorities.

**COMMUNITY COLLABORATION** - the Board of Education and district leadership have made it a priority to foster positive relationships with stakeholders. Efforts will be made to continue meetings that facilitate feedback and collaboration. Such meetings include but are not limited to Board of Education community forums, small-group meetings with the superintendent and school and support staff, faith-based partnerships, legislative forums, advisory groups, and family meetings.

**SHARED GOVERNANCE** - the Board of Education believes family and community governance are critical to the success of students and schools. The establishment of the School Governance Team (SGT) at each school serves to foster collaboration and brings families and the community together to actively engage in school improvement. The SGT is entrusted with the responsibility of providing input, making recommendations, and rendering decisions regarding various aspects of the instructional program of the school and the school’s operational scheme.
