I’m Ashley Chisholm, MSW, non-profit resource mobilizer and a proud Blue Devil and Panther parent for rising 4th and 7th graders who love their schools and community. Prior to doing development and fundraising work, I served the state’s most vulnerable populations through Juvenile Court, Department of Family and Children Services and various non-profits finding solutions to permanency and homelessness. My experiences provided a deep understanding of the importance of family involvement in our communities and in our schools. I’d like to serve on the student governance team because I believe in Marietta City Schools and what it provides to our children and community. I’ve had the opportunity to participate and utilize various services offered by our schools including special education team meetings, tutoring services, extra-curricular activities, community engagement activities and camps. Through these experiences, I know that our schools are dedicated to communication, collaboration, and problem-solving. I have also gained understanding of the needs and perspectives of different groups and stakeholders. I think that these qualities would make me a valuable and effective member of the student governance team. I am eager to contribute to the improvement of the student experience and the enhancement of the academic community at our institution. Vote Ashley Chisholm for Student Governance Team -Park Street Elementary!
