### GA K-12 Standards

**K.GSR.8** Identify, describe, and compare basic shapes encountered in the environment, and form two-dimensional shapes and three-dimensional figures.

- **K.GSR.8.1** Identify, sort, classify, analyze, and compare two and three dimensional figures, in different sizes and orientations, using informal language to describe their similarities, differences, number of sides and vertices, and other attributes.
- **K.GSR.8.2** Describe the relative location of an object using positional words.
- **K.GSR.8.3** Use basic shapes to represent specific shapes found in the environment by creating models and drawings.
- **K.GSR.8.4** Use two or more basic shapes to form larger shapes.

**K.MDR.7** Observe, describe, and compare the physical and measurable attributes of objects and analyze graphical displays of data.

- **K.MDR.7.1** Compare, describe, and order objects using measurable attributes (length, weight, height, or weight)
- **K.MDR.7.2** Classify and sort into categories

**K.PAR.6** Explain, extend, and create repeating patterns with a repetition, not exceeding 4 and describe patterns involving the passage of time.

- **K.PAR.6.1** Create, extend, and describe repeating patterns with numbers and shapes, and explain the rationale for the pattern.

**K.MP.1-8** Display perseverance and patience in problem-solving. Demonstrate skills and strategies needed to succeed in mathematics, including critical thinking, reasoning, and effective collaboration and expression. Seek help and apply feedback. Set and monitor goals. *(It is important to note that MPs 1, 3 and 6 should support the learning in every lesson.)*

- **K.MP.1** Make sense of problems and persevere in solving them.
- **K.MP.2** Reason abstractly and quantitatively.
- **K.MP.3** Construct viable arguments and critique the reasoning of others.
- **K.MP.4** Model with mathematics.
Essential Questions/ I CAN Statements

- (K.GSR.8.1) I can identify, classify, analyze, and compare two dimensional shapes and three dimensional figures. I can sort the shapes based on their attributes.
- (K.GSR.8.2) I can describe where an object is using positional words.
- (K.GSR.8.3) I can locate shapes in my environment by creating models and drawings.
- (K.GSR.8.4) I can use two or more shapes to form larger shapes.
- (K.MDR.7.1) I can classify and sort up to ten objects based on their attributes.
- (K.MDR.7.2) I can count the number of objects in each category and then further sort the categories.
- (K.PAR.6.1) I can create, extend, and describe repeating patterns with numbers and shapes. I can explain the pattern I used/created.

Tier II Vocabulary Words- High Frequency Multiple Meaning

above, attribute, behind, below, beside, circle, classify, compose, describe, extend, in front of, left, interaction, next to, number, orientation, pattern, property, set, sort, spatial

Tier III Vocabulary Words- Subject/ Content Related Words

Height, hexagon, length, numeral, octagon, quadrilateral, rectangle, right, square, triangle, vertices, width

K-12 Mathematics Glossary

Assessments

Formative Assessment(s):
- MCS K-5 Activity & Assessment Collection
- K.GSR.8.1 Mini Assessment - Identify Shapes
- K.GSR.8.2 Mini Assessment - Identify Shapes and Positional Words
- K.GSR.8.1 Mini Assessment - Sort Shapes
- K.GSR.8.4 Mini Assessment - Compose Shapes
- MIP: Grouping by Color Formative Assessment (pg 260)
- MIP: Add to Sort Formative Assessment (pg 267)
- MIP: Attribute Blocks Sorting Formative Assessment (pg 278)

It is the responsibility of each schools’ grade level PLC to identify appropriate instructional lessons and resources, based on data and student needs, using the suggested
**Pacing Duration.** The following learning tasks have been vetted to align to the standards included in this unit. The GA Dept. of Education strongly recommends that any additional tasks, resources, and/or assessments used for instruction should be vetted using the **Quality Assurance Rubric**, to ensure alignment to the state standards.

In this learning plan, students describe their physical world using geometric ideas (e.g., shape, orientation, spatial relations) and vocabulary. They will identify, name, and describe basic two-dimensional shapes, such as squares, triangles, circles, rectangles, and hexagons, presented in a variety of ways (e.g., different sizes and orientations). Students will develop spatial reasoning through the exploration of relative positions of objects to one another.

- **Teacher Guidance**
- **Student Reproducibles**

### K.MDR.7 Observe, describe, and compare the physical and measurable attributes of objects and analyze graphical displays of data.

**GADOE Learning Plan:**

**Shape Attributes:**
*Also includes K.GSR.8, K.MDR.7*

In this learning plan, students will explore two-dimensional shapes and their attributes. Students will use attributes to classify two-dimensional shapes. (Suggested time frame 3-4 days)

- **Teacher Guidance**
- **Student Reproducibles**

**Composing Shapes:**
*Also includes K.GSR.8*

In this learning plan, students will practice using two-dimensional shapes to compose (put together) larger shapes. (Suggested time frame 2-3 days)

- **Teacher Guidance**
- **Student Reproducibles**

### Savvas Envision Topic 13: Analyze, Compare, and Create Shapes

**Topic 13 deepens geometric understandings of two- and three-dimensional shapes. Students analyze and compare attributes of shapes shown in different sizes and orientations. Students build shapes using concrete materials, and use them to draw other shapes. Students also compose simple shapes to form larger shapes.**

- **Lesson 13-1: Analyze and Compare Two-Dimensional (2D) Shapes**
- **Lesson 13-5: Make Two-Dimensional Shapes (2D) from other two-dimensional shapes (2D)**
- **Lesson 13-6: Build 2D Shapes**

**MIP: Module 13 Exploring Geometry**

The key ideas focused on in this module include: analyzing and comparing two-dimensional and three-dimensional shapes through discussions and modeling combining simple shapes to form larger shapes through models and drawings.

- Alike and Different p. 301
- Triangle or Not Triangle p. 303
- Creating Shapes p. 306
- Cover My Shape p. 312
### Patterns In Our World

*Also includes K.PAR.6, K.GSR.8*

In this learning plan, students will create, extend and describe patterns using one or more attributes such as color, shape, size, position, texture, number, etc. Students should begin with simple patterns using one attribute and then move to more challenging patterns using more than one attribute.
