Answer

3. If there is a file to submit, the student will click the **+Add file** link.

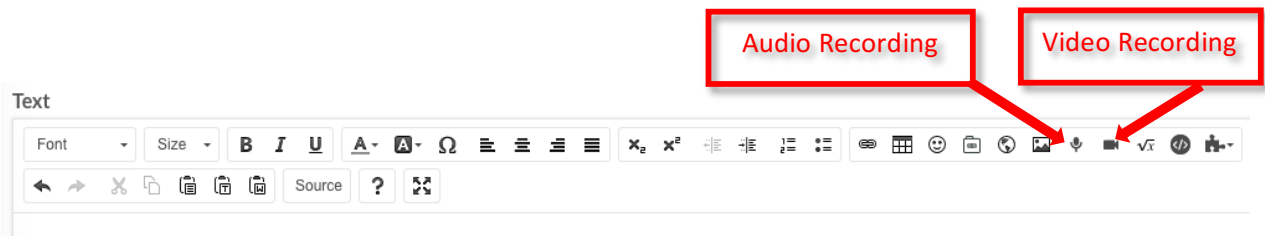

Assignment
Read the story and complete the plot analysis for "Seventh Grade". Click [here](#) for a document to help you do this.

Title
Assignment: "Seventh Grade" Analysis

Files
[+ Add file](#)

4. In the Add file section that opens, click **Browse**.
5. Find the file to be submitted. Click **Open** and wait for it to upload.
6. If the student wishes to type a comment to the teacher or type answer to the assignment, he or she should type that information in the Text box.

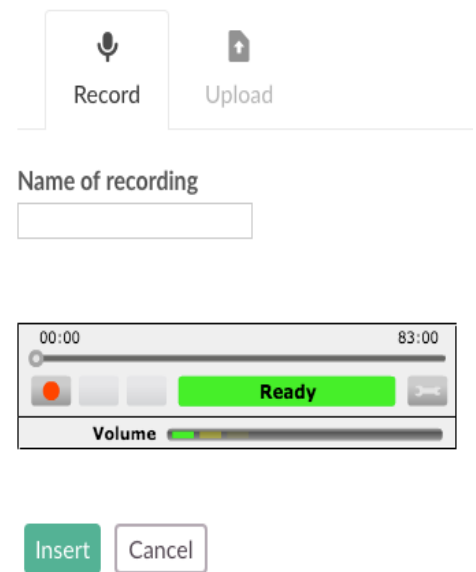

7. Students can insert audio or video clips by clicking the Add audio recording (microphone) or Add video recording (video camera) icons.

a) For Audio Recording: (using computer)

1. Click **Allow** to grant access to microphone.
2. Name the recording.
3. When ready to record, click the *record button* (button with red dot). When done recording, hit the *stop button* (button with square). To listen to recording, click *play button* (button with arrow).
4. When happy with recording, click **Insert** to add recording to submission.

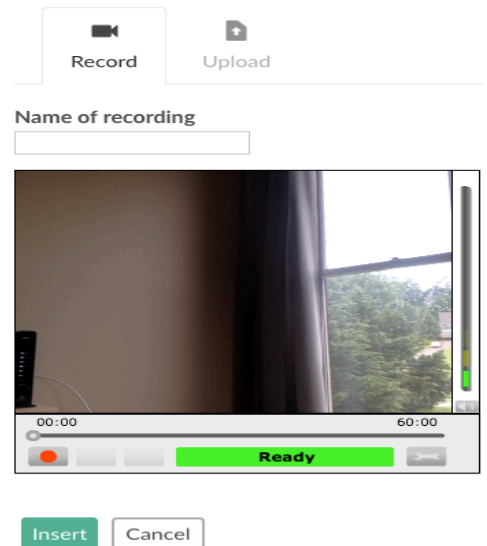

Audio recorder

b) For Video Recording: (using computer)

1. Select **Allow** to grant access to camera and microphone and click **Close**.
2. Name the recording.
3. When ready to record, click the *record button* (button with red dot). When done recording, hit the *stop button* (button with square). To listen to recording, click *play button* (button with arrow).
4. When happy with recording, click **Insert** to add recording to submission.

Video recorder

- c) If you are using a tablet or phone, the recorders do not work because they are flash based. However, here are some ideas for submitting recordings from devices.
1. To use your device camera to record, click +Add file, click Browse button, select Take Photo or Video for IOS or select Camcorder for Android, record your video, and for IOS click Use video to attach it and for Android click the checkmark.
 2. You can record yourself using a voice or video app (ex.: QuickVoice or device camera), upload the file to your Google Drive account, then use the +Add file link to import the file from your Google Drive account, and submit.

8. Click **Submit**.

**If you need to later edit your submission, just go back to the assignment. Scroll down to see your submission, if needed, and click the *Edit* or *Delete* button.
