- Advanced Studies “umbrella”. Currently offered courses will not be eliminated; however, some courses will be added. Goal would be to increase the opportunity to attend courses that would not normally be offered under the current scheduling matrix.
 - Courses to be aligned with high school courses – renaming as “honors” courses.
 - Parents can sign a waiver in order for their students to attend a course based on student motivation/desire and not test scores. Honors would be for both gifted and non-gifted students.
